WELCOME TO OUR WORLD

What makes us London's fragrance experts? It's an instinctive sense of what works. Being obsessed with every little detail. Travelling the world for the rarest ingredients and blending them in London, our home.

Yes, it's about experience, but it's also about looking at what's next. We're inspired by London, a city that never sits still. It's why our colours are brighter. It's why our scents are bolder. It's why we love mixing things up. You'll find a little London wit, charm and spark in everything we do.

WHY MOLTON BROWN?

You'll find the answer in a skin-conditioning pump of hand wash, the exotically scented foam of a bath and shower gel, the holiday hair that looks cared-for, not in crisis.

With expertly blended products that help your guests look and feel tip-top – whether their visit be for work or play – Molton Brown is a part of their stay that they'll remember long after the fragrances fade.

With over 25 years of experience in providing luxury hotels tailored-made services, we know how to create a carefully selected bespoke package that is as individual as the charm of your hotel.

Be it a collection of 30ml and 50ml travel sizes and accessories, or 100ml and 300ml sizes for top-end rooms and suites; we'll bring the same exotic blends that have captured the imaginations of customers and beauty editors around the world to your bathrooms.

UNDERSTANDING THE LUXURY HOTEL GUEST

“While you might not choose your hotel based just on the amenities in the bathroom, the right perks can make all the difference in your stay.

Once you factor in all the little extras, like the plushness of the towels, the softness of the robes, getting to use products that you love can turn a decent hotel experience into one that you’ll want to repeat time and again.”

Mintel, Top Bath Products at Luxury Hotels

“Finding Molton Brown in your hotel bathroom is the mark of a fine property. You know that you’re in for a good stay.”

Condé Nast Traveller magazine

PERSONAL AND CUSTOMISED SERVICE

“The client is king and will become more powerful and demand a deepening customisation of travel.”

Peter de Jong, Former CEO, PATA (Pacific Asia Travel Association)

“34% expect that products and services should be customised to their needs and desires.”

CORPORATE SPONSORSHIP & GIFTING

As proud sponsors of leading events around the world, our pre-packed corporate gifts are designed to impress at your special events. And with our all-year-round gifting programme, delight VIP guests with fragrant and thoughtful tokens or extravagant gestures.

SCENT MARKETING

Molton Brown has partnered with Brandaroma to create ambient fragrance solutions for larger spaces in order to be able to offer this service to our hotel partners.

Brandaroma matched the Molton Brown high quality oils, without changing the characteristic or integrity of our fragrances.

OUR ENVIRONMENTAL COMMITMENT

INGREDIENTS

We get our naturally derived ingredients from sustainable sources around the world, often helping to stimulate the economies of developing countries along the way.

We only use preservatives that are safe and legal in cosmetic products all over the world.

An independent testing company runs all our skin, eye and SPF tests on volunteers. We have also been awarded the Leaping Bunny stamp of approval by Cruelty Free International, certifying all of our products to be free from animal tests under the international Humane Standards.

PACKAGING

All our core bottles from 30ml to 5L are made from recyclable PET material and our pumps and caps are also made from recyclable material.

93% of our packaging is recyclable from our paper bags to our beautiful Christmas gift boxes.

Wherever possible we will source our raw materials, packaging and components from UK manufacturers to cut down on the mileage travelled and so cut down on the carbon used to transport them to our manufacturing site.

In 2011 we lightened the load of our hotel accessories packaging by 7% (just under 1.98 tonnes per year). Now, all of our accessory items and soaps have been repackaged in 100% recyclable cartons and wrappers.

We're internationally renowned for our compliance with packaging waste legislation. This is partly because of our participation in the EU's Green Dot Program. This symbol lets your guests know that our packaging is recyclable and is part of the collection/sorting process with participating EU states.

PRODUCTION

We aim to limit the environmental impact from our production sites by using “intercooling technology” to swap heat into and out of our manufacturing processes when making gels and lotions.

We recycle 95% of all waste created in the manufacturing process at our plant in Hertfordshire, England and recycle all our liquid waste from cleaning our manufacturing equipment at the end of each batch using a revolutionary composting process.

We have reduced our energy consumption within our manufacturing by 27% over the last three years.
