A World of Colours

Our solid colour towels are piece dyed, which provides a uniform colouration. The bias trim, the label and the terry towels have the exact same colour. More elegant, this provides a unique look.

For the dying process we use the best - environmental friendly colourants known for their resistance. This results in no more shrinkage, size variation nor colour fading.

All water used for dying is sent to an onsite highest level recycling tank.

A close-up, side-profile shot of a child with dark hair and glasses, wearing a bright orange, textured knit sweater. The child is looking out over a calm body of water towards a distant shoreline under a soft, hazy sunset sky. The overall mood is peaceful and contemplative.

CARE INSTRUCTIONS

General Up Keep

- If a thread is pulled in the towel, using scissors, carefully cut the snagged yarn at pile height
- Wash separately from other textiles and garments; items with buttons, zippers, hooks and velcro will snag the terry
- Certain cleaning and hygiene products contain ingredients which cause bleaching, some of these include bleach/anti-aging creams, product with alpha hydroxy and fruit acid, hair coloring products, bathroom cleaners and teeth whiteners
- All of our products are pre-washed to prevent shrinkage

Washing

- Do not overload the washing machine
- Use medium temperatures when washing (40°)
- Do not use detergents containing brighteners and whitening agents that may alter or fade colours
- Separate whites and light colours from dark coloured textiles
- Do not use bleach or fabric softeners
- We suggest the use of liquid soap

Drying

- It's important to use a tumble dryer to restore volume and loft to the towels and rugs
- Use medium temperatures when drying
- Be sure to dry thoroughly to preserve the durability of textiles
