BAOLGI

Depuis plus de 15 ans BAOLGI conçoit des objets contemporains fabriqués à la main à partir de ressources renouvelables telles que les feuilles de palme, le rotin et la vigne d'eau. Nos collections trouvent leur place dans tous les intérieurs – du loft new-yorkais au chalet de montagne. C'est grâce à une tradition millénaire et le savoir-faire remarquable de nos artisans que nous avons pu créer une gamme complète d'articles pour l'art de la table, le rangement et la salle de bain.

Cette collaboration a aussi un impact considérable sur la qualité de vie des personnes qui travaillent avec nous : les ouvriers qui récoltent les matières, les tresseurs et les personnes qui s'occupent du contrôle qualité et de l'emballage.

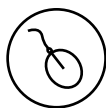

Plus de 700 personnes font partie de cette histoire.

For more than 15 years BAOLGI specializes in the design, manufacturing and distribution of contemporary handmade home accessories.

Our products are made from sustainable fibers. A tradition of more than thousand years and the incredible skilled hands of our artisans have made the design and production of our products possible.

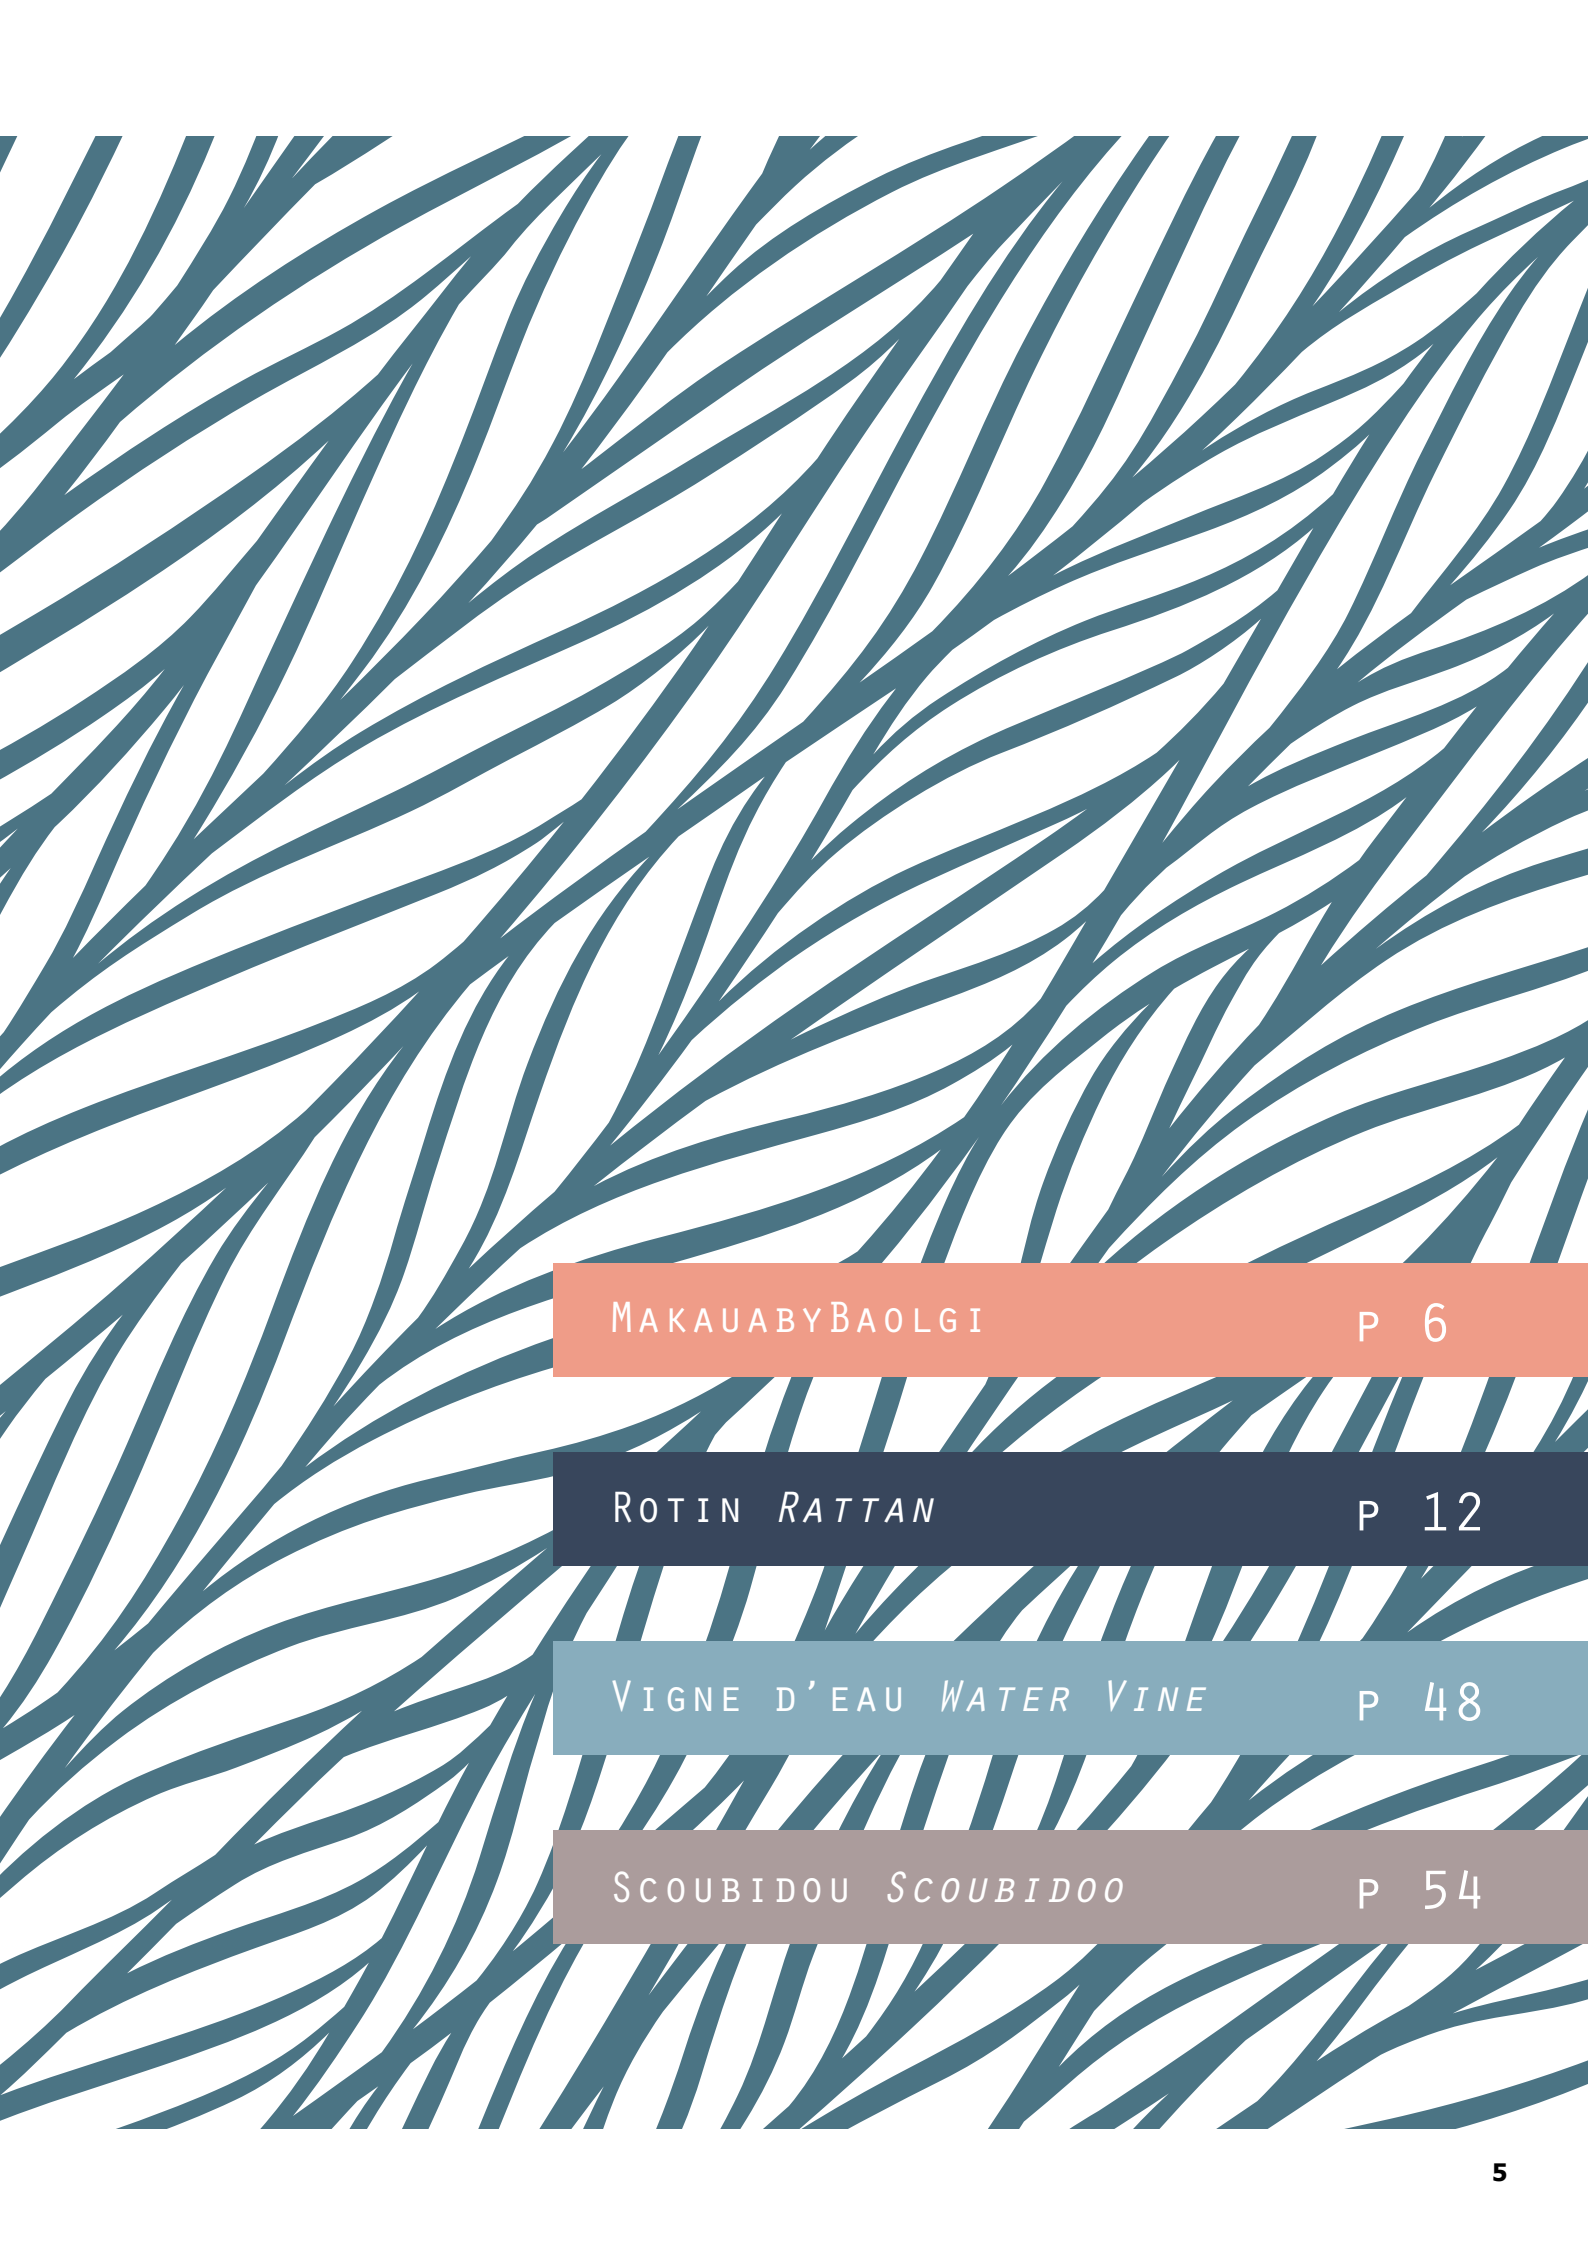

This income has also had a substantial impact on the quality of life of the people who are part of this beautiful story : from the people who cut the fibers to the artisans who make the products and the people in charge of quality control and packing.

More than 700 people are part of this story.

Cette collection est fabriquée à partir de tresses de feuilles de palme.

C'est en cousant les tresses ensemble que nos artisans élaborent ces paniers raffinés.

Un panier intérieur attaché à un panier extérieur permet une multitude de variations. Plongez-vous dans notre concept et concevez vos propres associations. Mélangez les couleurs, les styles et les tailles pour élaborer votre collection privée à partir de 100 pièces.

These beautifully hand crafted Mexican bowls have a gorgeous earthy feel.

Our products are made from sustainable palm leaves which are braided and sewed together. With an inside basket and an outside basket fixed together this gives you endless possibilities to mix the colors, the styles and the sizes to create your Private Collection from 100 pieces onwards.

RO TIN RATTAN

Le rotin, matière de tissage par excellence, est utilisé dans les pays asiatiques depuis des millénaires.

Seuls les paysans de Birmanie se sont transmis de génération en génération le savoir-faire du tissage haut de gamme. BAOLGI sélectionne des rotins d'une grande régularité et confie son tissage à ses artisans expérimentés.

La collection Rotin résiste à la chaleur et est lavable à l'eau.

Add natural charm to your home with our Rattan baskets.

Rattan has been beautifully woven with a textured surface to create the charming style. BAOLGI selects the most regular species and asks its experienced workers in Burma to transform them into artwork. All rattan products are heat resistant and can be cleaned with water.

VIGNE D'EAU WATER VINE

La vigne d'eau est aujourd'hui certainement la matière de tressage la plus raffinée du marché. BAOLGI l'associe à la porcelaine et au verre. Le panier protégera vos doigts de la chaleur du plat et apportera élégance à votre table.

Toute la collection est couverte d'un vernis alimentaire, résiste à la chaleur et peut être lavée à l'eau.

Water Vine is probably the finest fiber for basketware. BAOLGI combines the water vine baskets with French Porcelain as well as glassware.

Our artisans hand-make each of the products in this collection. The vines they use to construct them only grow in remote mountain jungles and are very difficult to reach and challenging to harvest. Earnings from weaving help lift these artisans and their villages out of subsistence living, and provide them with better food, health care and transportation. All products are covered with a food safe varnish, are heat resistant and can be washed with water.

Directement inspiré des paniers des lavandières, ces paniers s'utiliseront dans toute la maison. Le rotin par nature est totalement sain et d'un entretien très facile. Bien sûr vous pourrez lui trouver bien d'autres usages et pas forcément caché dans un placard. C'est un vrai produit de décoration, la petite touche avec le Scoubidou, lui donne un look branché, jeune ou romantique en fonction de la couleur choisie.

For the Scoubidoo collection we decided to use the traditional shape of 19th century baskets. The colorful plastic ribbons (called scoubidou in French) gives it a modern touch. Don't hide them in your cupboards but fill them with toys, store your magazines or show them in the bathroom.
