

FENDI
CASA

MOOD

THE FAMILY COUCH
THE CRAFTING MOOD
THE VIBRANT SOUL
THE OUTDOOR

FENDI has conceived four different moods, inspiring the diverse atmospheres and a range of suggestive ambiances, all injected with the Maison's signature modern elegance.

THE FAMILY COUCH

F stands for Family. FENDI celebrates the joys of a warm, welcoming domestic environment with “The FENDI Couch” installation. Infused with reassuring refinement and a timeless bourgeois vibe, it exudes ultimate cosiness, highlighted by the use of serene natural and soft tones, paired with more vibrant accents – expression of FENDI’s playful and unapologetic spirit. Sophisticated understatement defines these areas, which are conceived as ideal sets for both intimate family moments and friendly social gatherings.

THE CRAFTING MOOD

FENDI's signature upscale artisanal heritage is celebrated in "The Crafting Mood" installation. Sinuous shapes are skilfully combined with tactile materials into exclusive pieces that are designed to steal the spotlight. Striking color accents are matched with neutral tones in a charming balance between edgy boldness and timeless elegance. Inspired by FENDI's iconic leatherworking skills, special details, including exquisite stitching, complete the luxurious design in a proud celebration of the Made in Italy craftsmanship. Marble makes a bold entrance in the adds extra exclusivity with spectacular sculptural pieces echoing the signature architecture of FENDI's Palazzo della Civiltà Italiana.

THE VIBRANT SOUL

Designed to impress, “The Vibrant Soul” installation makes a luxury statement. Impactful and scenic, it conveys a slick yet always warm elegance. Lines get super precise, volumes are bold. Combining a sort of mannish sartorial sophistication with more feminine enveloping shapes, it reflects the quintessential duality of FENDI’s most authentic aesthetics. Rich colors add extra refinement to these precious set-ups, addressing demanding consumers that embrace an unapologetic attitude towards home decors.

THE OUTDOOR

Mother Nature inspires the mood and design of “The Outdoor,” the installation dedicated to the Bamboo collection conceived to decorate terraces and gardens. Calming, relaxing colors are combined with natural materials that are revisited with a very Italian, sophisticated filter for timeless pieces, where ultimate chicness coexists with a peaceful, relaxed vibe. Showcasing FENDI’s experimental and creative approach, “The Outdoor” seduces with special artisanal details and elegant material matches.
