# Style of Living

Perfecting the art of simplicity is never as easy as it sounds.

Straightforward elements must still combine to create a look that is as enduring as it is alluring. It's this that lies at the heart of Frette's Style of Living: elegant pieces that bring a lasting sense of style to any living space.

Leave behind the notion of seasonal, trend-driven collections to focus on forever pieces: revel in the striking and the endless possibilities of a truly considered palette. Each elegant, arresting design, texture and hue is designed to work in perfect harmony.

Exploring motifs with deep historic roots, symbolic meanings and a recurring presence in architecture, art and fashion has long been at the heart of Frette's design process. The resulting creations are contemporary classics, ready to build the perfect bed, to up the elegance of a bathroom, and bring the chicest of touches to communal spaces.

It is a new world of interiors expression and design possibility.  
It's a Style of Living. And it's all yours...

## Frette Bespoke
