

KIM SEYBERT

SPRING/SUMMER 2020 CATALOG

Ph: Gigi Stoll

With the warmer weather comes a rebirth, the world seems to bloom again. Hard to miss are the sweet shades of blush and periwinkle that permeate the green shoots and buds peeking through the soil. You will see a fresh take on these springtime colors throughout the Spring Collections as well as a twist on coastal entertaining.

Designing new and innovative products is incredibly important to me as is employing elite artisans and sourcing the finest materials world-wide. Many of our new designs feature extraordinarily detailed craftsmanship; shells are hand-cut, fabrics hand-dyed and linens meticulously embroidered.

I truly believe that setting a table and entertaining should be fun and exciting! My hope is that the Spring Collection gives you the tools to create a table that is uniquely yours. Use my designs as a jumping off point and let your imagination run wild!

Camellia

A softer take on the scalloped design motif found on traditional china dinnerware, the Camellia Collection features hand dyed Capiz shells in a muted blush. Each naturally occurring shell absorbs the dye differently allowing for stunning color variation. The shells are hand-placed in a scale like pattern, creating a purely one-of-a-kind product. Continue the blush theme with the dainty, floral inspired embroidered Jardin Napkin which uses a shimmering blush thread.

Tahiti

Tahiti, French Polynesia's largest and most diverse island, is known for its tranquil ocean waters and host of serene lagoons. Rare mother of pearl pieces are hand-dyed a soft blue hue and hand cut to achieve an artisanal look. Placed in a circular pattern by hand, this bespoke placemat lends itself to seaside soirees. The Tahiti Napkin Ring, reminiscent of the Tahitian Gardenia and fashioned from river shells, completes this exotic look.

Agate

Agate, a compilation of rock crystals and quartz, is regarded for its healing properties. The naturally occurring bands encourage balance and harmony and dates back to antiquity. The Agate Placemat is modeled after a slab of Agate found in Sicily, where the crystal was first discovered. Layer the table with organic materials such as our Flare or Radiant Napkin Rings which feature crystals, and set the mood with our Dip Dye Napkin in Gray & Silver.

Mali

Traditional Bogolan, a hand dyed cotton cloth, is worn in Malian culture as ritual protection and a symbol of elevated status. The Mali Runner is a spin on this intricate cotton weaving and dying process. The cotton runner is digitally printed with a tie dye motif and hand decorated with raised yarn and complex beading. The hand-crafted tassels are added to the edges, giving the runner a bohemian feel.

Art and design run deep in the Balinese culture, originating as expressions of obligation to the deities. The Bali Collection was inspired by the traditional wastra endek, a Balinese loom ikat pattern. Using a mixture of glass, raffia and plastic beads, the Bali Placemat mimics the time-honored geometric design. Draw on the deep blues and crisp whites with the Jaipur Napkin and add more natural inspired elements with different napkin rings.

As the name suggests, the Shibori Collection is a take on the Japanese “wring, squeeze, press” style of resist dyeing. Fabric is folded, crumpled, stitched and twisted before being dyed to create a three-dimensional motif. Cotton has been tie-dyed and then photographed to create the reversible Shibori Placemats, available in Blue/Yellow and Turquoise/Pink colorways. Keep the color uniform for a more conventional setting and add bold details like the Knotted Edge Napkins and an assortment of our bird napkin rings.

PRODUCT CARE

Our products are meant to be enjoyed, so please don't be afraid to use them! If you follow our suggested methods of care, they will continue to look fabulous for many years to come. Our products are handmade and hand-dyed; therefore the colors may vary slightly from one piece to another. We recommend ordering the full amount needed, as a second shipment may not match exactly.

21" X 21" LINEN AND COTTON NAPKINS

Machine wash separately in cool water on a gentle cycle with a mild detergent. Remove from the dryer promptly while slightly damp to minimize wrinkles. Smooth and fold, or iron on a linen setting if desired. Use spot remover if necessary, but do not soak in bleach, as colors may run. Do not dry clean.

BEADED PLACEMATS & RUNNERS

Use a soft toothbrush with soapy water to remove stains. Iron fabric backing to finish if necessary.

ACRYLIC PLACEMATs

These placemats arrive with a protective film or paper backing which should be removed prior to use. Acrylic scratches very easily. Clean with a soft, disposable lintless cloth and a cleaner made specifically for acrylic. Should scratches appear, gently buff out using scratch remover formulated for acrylic products.

MOUTH-BLOWN GLASS

Hand washing is recommended.

NAPKIN RINGS AND HOME DÉCOR

Wipe clean with a damp cloth. Use a soft toothbrush with soapy water for beaded, stone, and metal napkin rings if needed. Do not use citrus-based detergents.

ABOUT OUR HANDCRAFTED PRODUCTS

Whether they are hand-beaded, hand-dyed, or individually carved and painted, almost all of our products are hand-crafted by our artisans around the world, often using natural materials like gemstones and shells. For these items, some variations in color, shape, and design are to be expected. No two pieces will look exactly alike, making them unique works of art for your table!
