Acqua dell'Elba: The Essence of the Sea

A family run business with three partners, Fabio, Chiara and Marco.
A story which starts whilst sailing the Mediterranean Sea.
The passion for fragrances and one dream: to craft scents which evoke the magical essence of the sea.

Authentic like the sea that surrounds our island of Elba, where we were born and raised. We are interpreters of its poetry and we live everyday with our work. Each product is the result of a creative process and constant research, which takes shape thanks to our local knowledge, passion and artisan skills.

Acqua dell'Elba: Authentic, free from the superfluous, typical of those who love simplicity, clarity and beauty.

Acqua dell'Elba Yachting

A curated selection of products bringing to life the beauty of the sea.

A unique *bouquet*, crafted with our discerning and skilful artisan hands, combining classic and new Acqua dell'Elba products for those passionate about the sailing and the sea.

A distinguished elegance like the Acqua dell'Elba soul, for a unique experience aboard: in the softness of the fabrics that will dress your interiors with grace; in the smoothness of the body creams, that will embrace your body; in the pleasantness of the soaps, that will caress you like the sea waves; in the magic of the candles, that will transport in a midnight summer's dream; in the poetry of the home fragrances, that will evoke your best memories.

Acqua dell'Elba new yachting collection
The sea is our life, our home.

Yachting Home Diffusers
